

MasterKey - The Uncompromising Windows and Mac Keyboard Skills Tutor

Use MasterKey to UNLOCK your kids potential

Master Key is the most versatile typing tutor on any platform because we've worked with customers at home and in schools over 8 years. Kept completely modern, Master Key uses the standard interface respective to Mac or Windows so it never looks like a port or afterthought on one platform.

Key Advantages

- Standard OS interface respective of Mac and Windows
- Drill Editor to create your own drills based on your own key vocabulary
- **ParaTyper** a game
- Pause drills so you can answer the phone, take another sip of coffee, or just scratch your nose
- Allows corrections to the previous line
- Type in 12 or 24 point type
- Try it anonymously as long as you like

Other Key Features

- Comprehensive individual statistics and history
- Timed or text-length drills
- Mastery goal for speed and accuracy with certificate print-out
- Dvorak, AZERTY and QWERTZ keyboarding support and drills
- Support for most Roman-based languages with your own text files as drills
- Optional audio feedback with actual typewriter audio

The current version of Master Key is...

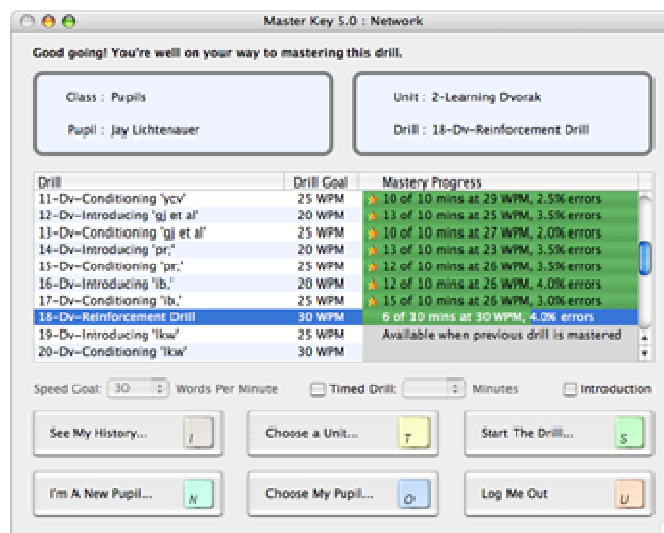

- Leopard ready.
- WinXP & Vista ready.
- Intel Mac ready.

Tuned for schools

Teacher and network support are at the core with centralised control, rules, reports, passwords, and cross-platform sharing of data.

Key Advantages for Schools

- The software is maintained and updated without need for repurchase
- Program can be installed on a server or network, then updating is quick and easy (No updating required for student machines once initially setup)
- Student Reports showing progress over time
- Class Reports exporting and printing
- Brilliant graphs can be created from exported reports
- Different network installation options. You can test Network Mode before purchasing
- Network data can be shared by both Macs and PCs with the most options for networking of any typing program
- You can use the network efficiently by only storing dynamic information on it
